

Green passport

NHL Stenden Beanie

Product description

This beanie is made from 100% recycled RPET and constructed with a double-layer design for extra insulation. It features a full-color sublimated badge on the front with the NHL Stenden design. The beanie offers a standard adult fit (approx. 20 × 21.2 cm, 55 g) and is suitable for everyday wear.

Material

- 100% RPET (recycled polyester)
- Double-layer knit structure
- Full-color sublimated front badge

Environmental impact

This beanie is crafted from RPET, made from recycled plastic bottles, reducing waste and lowering the environmental footprint compared to virgin polyester. RPET production requires less energy and water and helps divert plastic from landfills and oceans. The durable double-layer design also ensures long-term use, reducing replacement frequency.

Packaging

Packed in minimal and recyclable protective materials to reduce waste.

Transport

Delivered to one company address within the registered country (EU mainland deliveries included). Shipped in bulk and via optimized logistics to reduce CO₂ emissions. Shipping timelines are subject to production capacity and supplier holidays.

End of life

RPET can be recycled again where appropriate facilities exist. Remove the badge or branding element before recycling. Dispose of packaging through standard recycling streams.

Safety & compliance

This product complies with all relevant safety regulations.

Why it's green

- Made from 100% recycled RPET
- Double-layer design for long-lasting use
- Recyclable packaging
- Reduced impact through optimized transport
- Supports circular material use
